In Shakespeare's Henry IV; the Prince who is destined to ascend the throne of England is depicted as a gay, irresponsible carouser. He is the playboy of the royal household, and, in frequenting taverns and consorting with the habitués, he acquires quite a motley crew of companions. His coronation sees the beginning of a complete character transformation. Prince Hal, the idol of Falstaff and his petty-thieving crew, now crystallizes into King Henry V, an ambitious, hard-driving opportunist. Where Prince Hal's problems were confined to the pursuit of pleasure, at the opening of Henry V, we find King Harry on the threshold of a full scale war with France.
